BRITISH Oi!  
SKINZINE  
PO BOX 249,  
DERBY,  
DE21 9EG.

## *Editorial Comment.....*

Well here we are at No.25 of Britains best loved, longest running Skinzine. Well sadly all good things must come to an end but this isn't the last British Oi!, No.26 will be the last and shall be the usual issue with news bands etc but it shall also be a commemorative issue which will detail the past and what British Oi! has been through since I started the zine in '86. I've decided to call it a day as now I have a family which keeps me on my toes and work committments are quite tiring. Don't fear, I shall still be doing things for the movement, like BNP activites, Blood & Honour unit for Derby etc so I'll still be occupied. Anyway, as I say No.26 will be the final edition of British Oi!. Its one for the Oi! collector as it will be a limited edition.

Well onto other matters, thanks for buying No.25 of British Oi!, I hope that you enjoy it. The contents of this zine is - the regular photos of oi! - interviews with Radikahl, Rival and Extreme Hatred, Ian Stuarts 'Skrewdriver News', my roving reports from round the globe in 'On the World' which features the lovely country of Switzerland and some other bits and bobs for your amusement/enjoyment.

So until the Grand Finale in No.26, just think, VICTORY WILL BE OURS !

# Radikahl

Well I got to hear about Radikahl from a German friend Dicker who said they were his local band and were getting a strong following. So hence, I wrote to them and they replied with a interesting interview. Here goes.....

1. When, why and where did you form

It all started in 1989 with 3 young lads from Furth/Nurnberg, Germany who wanted to make music. This band was called 'Giftgas' which means Toxic Gas and they achieved only a 3track demo produced by themselves. There followed over the next 6 months alot of changes and a new line up with a new name. This was the birth of Radikahl. Since then the line up has never changed and so far a few years we have played music for the skinhead scene.

2. Whats the current line up then ?

The current line up is : Mandi - Vocals - 22, Spike - Guitars - 22 -, Thomas - Bass - 24 and Markus - Drums - 23.

3. Why the name Radikahl ?

Well, the name Radikahl is very powerful in German. Its a word brought together from two words. RADI comes from Radical, and we changed the Cal to Kahl and this means something like 'A head without hair' or skinhead.

4. What topics do you sing about ?

Firstly, we are a very proud nationalist political band. Our songs come from the topics that concern German Nationalists, anti communism, patriotism, Skinhead fun in life, and of course everyday life in our local area.

5. Are you a political band ?

At first we must add that we are skinheads, not party members. We believe in a way of life where we need no political parties, but being realistic we can see the depressing sight of our nation. Yes we are political and believe in patriotism and a national spirit. This spirit is important to all white europeans and all of the european blood worldwide. We fight to keep our culture and spirit alive against all the creatures that would like to destroy us. If you listen to our song H.K you'll hear our strong beliefs.

6. What do you think of parties such as the REP, FAP, DVU etc ?

As we say we are not party types but we must have unity with party types as alone we wouldn't have the numbers or the force to stop evils like communism, immigration child murderers etc etc. In Germany we have alot of Nationalist and Patriotic parties but they have no unity, some even are anti skinhead, so this type we think are shit!

7. What influences Radikahl both musically and politically ?

We are influenced musically by Skrewdriver, Indecent Exposure and Endstufe. Politically we support the Blood & Honour movement.

8. Have you got much of a local following ?

The skinhead scene around here is OK in and around Nurnberg/Furth. But we do have a few different skinhead groups but most or all don't really stay in contact with each other. A good regular meeting point is missing but many skins do support the local football team 1FC Nurnberg in the football bundesliga. There are also some unpolitical skins, some scooter lads and some f\*\*\*\*\*g SHARP scum. Our local support is great. In one record shop where our first mini LP came out both that (Retter Deutschlands) and our t-Shirts sold out within 2 weeks.

9. What other German bands do you rate ?

Only one German band have inspired us and that was the old skinhead band Endstufe. But we stay in touch with other bands like Storkraft ( Especially ). Tonstörung, Wotan, Bomber, Werwolf, Noie Werte etc...

10. Could you tell us about your gigs ?

Ohh, we've played about 10 -15 gigs all in Germany and they have been with German bands and other bands like Skrewdriver, Dirlwanger, No Remorse, Skullhead, Division S and Bound For Glory and Final Solution from the US on there debut in Germany.

Our best gig on the musical side was the concert in Cottbus in '91 as it was the 1st birthday of German reunification. We played with Storkraft, Tonstörung and Skrewdriver/Ian Stuart, you might remember the Cottbus Six. Many attended. Other memorable ones were

the open air one in Brandenburg and a gig in Weimer this year on 14th March with the two US bands as mentioned. Our worst was on May 23rd '91, it was our debut gig and fellow bands Wotan, Werwolf, and Storkraft were also billed. About 550 were there and after two bands had been on loads of fighting broke out and people put fighting before the Oi! music. This was a sad day in German skinhead history.

11. What merchandise have you available ?

We have got alot of various things for sale like t-shirts, records, patches but for an extensive list write to PLK NR. 19 18 12 E, D-8500 Nurnberg 1, Germany. We have two t-shirt motives and per t-shirt they cost £8 inc P&P.

12. Could you tell us about your record etc ?

Yes we released our first demo tape as a mini LP on Rock O Rama. This LP is called Retter Deutschlands and there are 7 tracks on it, 8 on the tape. In July we recorded our first full length LP called ' Finde Deinen Weg ' which we hope to have out by the time you have this interview printed in November. There are 12 songs on it and we think its turned out really well.

13. What future plans have you got as a band ?

At the moment we have no real plans as we've done alot of gigs lately and spent alot of time on the LP and merchandising etc so for now we'll rest a bit as we have other things to do, like family life etc which is more important. Also we've had a bit of trouble with the German laws concerning our lyrics on H.K.

14. What other hobbies have you all ?

We all have interests in sports and training like Boxing, running etc and Bassist Thomas has his own family, and of course we all have our girl friends and work.

15. Anything else you would like to add to conclude this interview ?

Thanks for taking time out to interview us and show interest in us, we send our best regards to British Oi! and to all British Nationalists and Patriotic Skinheads, EUROPE AWAKE - R A D I K A H L.

Many thanks to Radikahl for the informative interview and the details of all your band history, by the way, RETTER DEUTSCHLANDS is a great mini LP and well worth getting, a rough band with some great songs.

# Extreme Hatred

Well heres a band that are making a name for themselves now on the US Oi! scene, they are Extreme Hatred and recently were highly praised for there performance at the Aryan Fest '92 . Welll lets hear what makes them tick.....

1. When, why and where did Extreme Hatred form ?

We formed on March the 1st 1992 in Orange County, California. We started Extreme Hatred Skinheads as a skinhead gang

and also Extreme Hatred the band as there were no other bands in our area who were racially concious, and we felt the need to get our message out.

2. Whats the current line up with ages ?

Martin - 26 - Vocals, Chuck - 28 - Guitar, Jason - 22 - Bass and Scott - 21 - Drums.

3. Why the name Extreme Hatred ?

We thought of a couple of names before settling on Extreme Hatred. One of the names we thought of was 'Hate Crime' but that will most likely be one of the names of our songs in the future, so we decided on Extreme Hatred as it seemed to fit our attitudes, also because of the Extreme Hatred Skinhead Unit and Skinzine in Orange County, that subscribes to our beliefs.

4. What topics do you sing about ?

We sing about a variety of subjects that concerns our race these days. Our song ' Race Riot....Lets try it ' is about how we won't be pushed about by non-white gangs. We'll stand and fight 'till the death to keep our race pure and supreme. ' Injustice ' was written for the members of The Order and other comrades who are doing time solely because of there racial views. ' Hey ' is about being a White Power Skinhead and how no one is gonna change us or our beliefs.

5. Who influences you both musically and politically ?

Martin : Musically - Condemned 84 and Ian Stuart, politically I'd say the whole land are influenced by The Order.

Chuck : Bound For Glory, Skrewdriver & Guttermouth,

Jason : Battlezone & Bound For Glory,

Scott : Bound For Glory, Battlezone, Skrewdriver and Social Distortion.

6. Whats EH's view on Bush & Clinton ?

Bush & Clinton are both just like all the other politicians who we think are liars and can't be trusted.

7. How is the skinhead scene in your area, Orange County ?

We have a moderately sized skinhead scene in O.C. right now, but it seems to be growing. Hopefully, we'll have a good strong movement here again, like we did back in the late '80s. We have alot of strong support, not just in O.C. but across the USA.

8. How can you see this scene developing over the next 5 years ?

Well from what we see in this area, and from talking to other skinheads across, the country, it seems to be growing a great deal. The new skinhead ' organizations ' that are developing, seem to be more underground than they have been in the past years, but there are more skins none the less.

9. What do you think of the K.K.K, W.A.R, Christian Identity etc ?

This is no longer a war of words but a war of action. So we support all organizations who are out there actively doing something to strengthen and to help the White Race. Thom Robb's KKK and other conservative groups like these hhave no part in our plans as we are concerned ?

10. How many gigs have you done and who with ?

We've played at a few parties and recently opened the Aryan Fest '92 but due to sound problems it didn't turn out so good, the gig was with No Remorse & Dirlewanger in Southern California.

11. What recording plans have you got ?

We recorded a demo recently that turned out poor, quality wise and so we are in the studios now doing another one. Also we hope to get a LP one day.

12. Whats the bands verdict on the L.A riots ?

Our song ' Judgement Day ' was written about this rioting soon after it started. We, by no means support the cops in this case or any other for that fact. Skinheads have been beaten and harrassed by the cops since the movement started. We have no support for the blacks and mexicans that rioted. Basically, F\*\*k the cops, F\*\*k the rioting hoardes and F\*\*k South Central L.A - BURN IT DOWN.

13. Apart from the band, what other hobbies have you got ?

Martin : Going ti Jail !

Jason : I like silk screening t-shirts and patches etc...

Chuck and Scott : The band takes up most of our time.

14. Anything else you would like to add to conclude this interview ?

First of all thanks to Ed of Bound For Glory for telling British Oi! about us, and if anyone would like our demo tape out soon, it will cost 5 dollars from Extreme Hatred, PO Box 18502, Anaheim, CA 92807 - 8502, USA. We also do the Extreme Hatred skinzine for 3 dollars.

Cheers to the band for answering the interview especially Scott. Good Luck.

# ON THE WORLD

## Switzerland

Well British Oi! still digs deep to bring you the news from all countries in the world and a indepth report of a country, a skinhead movement and generally what makes it tick. Anyway, as it says above, this issues 'On the World' features Switzerland, the picturesque country of skiing, alpiness and chocolate. Anyway on with the report, special thanks to Tattoo Rudy and Pat Item for your help.....

Right lets kick off with this and find out a bit about the

country. Switzerland borders - Germany, Austria, Liechtenstein, Italy and France, once a strong wealthy nation it has gradually and still is in mass decline. It seems huge amounts of money are being spent to say help out farmers but they haven't increased taxes so therefore the nation is in a huge national debt. The national debt is about 50 billion francs, say 19 billion pound in sterling and that works out at about £2754 per each man, so in my view the government is in a disasterous position. There is high inflation, high food prices, high unemployment and that country will soon be bankrupt. So to be a skinhead in the country, he has to be aware of the situation and I reckon push the stance of nationalism, as this would lead them out of disaster. It makes a interesting fact and this was quoted from a swiss national paper that 41.6 of those who draw state benefits, dole etc are third world immigrants.

The countries main industry is Precision machinery, machine tools, watches ( Rolex ) etc, Foodstuffs like Nestle foods, cheese and silent products like Swiss banking, tourism and insurance. The chocolate has become world renowned as great and the most favoured bars by the swiss are, or makes should I say are Nestle's, Lindt & Spruengli, Tobler and Milka.

The ruling political parties are a type of coalition and are - The Federal Council and exists of Liberal Democrats, Two swiss peoples parties ( Farmers & Tradesmen ), Two Social Democrats and a delegate from The Christian Peoples Party. Nationalist or National Socialist Parties are not openly active, the right wing Mutschellan Front ( RMF ) caters for skins but I'll say more of those in a moment.

The immigrant situation in Switzerland is quite frightening, of a population of 6.9 Million, 1.25 Million are of immigrant descent, which makes up about 18% of the population. Interesting the prison population is made up of 65% Foreigners and in Zug its 80%. The drug trade is basically a momopoly of asylem seekers, on the top of the list of street dealers were Serbians & Kosovo Albanians, but the traffickers are mainly Ghanans, Columbians and Nigerians.

Switzerland will not expell anyone who has a work permit but is not of swiss origin and it is said that only 3% of the asylem seekers were actually persecuted in there native countries, 97% were and are just oppurtunists invading the nation to reap the reawrds of state benefits. It takes about 18 months for the state dept to decide whether the 'seeker' is true or false but in that time the average one gets about 2000Francs a month, which is about £770 for just being in Switzerland, roughly this is the same as a swiss labourer working a 40 hour week ! Call that justifiable.

Well, what do you think to that news about Switzerland then, quite depressing, but there is a better side to Switzerland in the obvious form of nationalism and lets see whats happening on the skinhead nationalist scene.....

Unfortunately there are no Swiss skinhead bands at present which is a bit sad, so come on you swiss, get your act together do something. There were two bands in the past, the first called 'Blut und Ehre' (Blood & Honour) from Zurich, and secondly from Basel 'Sturmtruppen' (Stormtroops) who released a LP with Rock O Rama. The four members of 'Blut Und Ehre' went on to form a new organisation called the 'New National Front'.

The skinhead scene in Switzerland is still quite small with **only**, about 150 real skins from mainly larger towns and cities. The best organized are the 'Swiss Hammer Skinheads' which is a unit of the American formed network of skinhead groups/gangs. Most skins live in Zurich & Lucerne or surrounding areas. There are also some good real skins in French parts of Switzerland like Lausanne and skins from areas such as Bavaria, Vorarlberg, Swabia and Alsace have more **closer ties** to Northern & Eastern Swiss Skins than the central swiss skins. If you want to see a gig in Switzerland, it's a drive or train to Germany as Swiss gigs just basically don't happen.

But what about merchandise etc. Well as I have found out from my various On the World reports, records seem to be bought straight from the main dealers like Rebbelles and Rock O Rama, this is how it is in Switzerland, one shop does stock records but I get the feeling most records are bought by mail order, or at gigs when they travel to them. Doc Martens, Fred Perry and Lonsdales are all available in Zurich but Ben Sherrans and all the t-shirts on today's market are all mail order again and bought from either Germany or England.

Skinheads in Switzerland haven't really attracted mass media attention as of yet, like in time it happens all over the world but minor incidents have been reported linking skins with racial violence etc, it seems local papers take great pleasure in slagging skins off but the national press don't bother much.

On asking a swiss comrade about which preferences he and his mates have to beer and lager drinking the man in question replied ALL! Now we all enjoy most drinks but I wanted names etc, unfortunately, this wasn't to be, all I can say is that local brands seem more popular than the national brands, and if it makes you feel good, it will do, especially in large quantities.

What of the future of the Swiss skinhead scene, well at the present things seem to be happening a little more, as mentioned the Swiss Hammer Skins has formed to create a bit of unity and strength and above is there calling card and on the other page is the photo of the Swiss National Day 'Hammer Skins Party' which apparently went well with lots of beer and a good atmosphere. There are some well put together zines on the Swiss market, the first is 'Der Totenkopf' (The death's head) which covers bands, news, has photos etc etc and is available from Patrik, PO BOX 204, CH 6048, Horw, Switzerland. Cyrill is the main person to contact from the Swiss Hammer Skins at there above address. 'Der Totenschlaeger' (The Cudgel) is another well put together produced zine and covers a more political scene but also skinhead stuff, this is by the 'R.M.F.' at Refi, Postlagerand CH 8967, Widen, Switzerland. Both of these are written in German. Then there's a French written zine called 'Helvetie Blanche' (White Helvetia/Switzerland) published by R. Pythoud, Valentin 34, CH 1004, Lausanne. All go for £1 inc P&P or something like 300 Swiss Francs.

Well that wraps up my look into Switzerland. It seems interesting that such a beautiful country is being swamped by alien immigration and no one is really standing up and denouncing it, as maybe, the people need someone to join and fight back. We'll have to keep a close eye on the country and see what develops.

Many thanks to all my Swiss comrades, who without, this article, wouldn't have been possible, British Oi! salutes you!

# News From The 'RIGHT' Side

Well welcome to your regular news pages that'll keep you upto date with the goings on in the band scene, the newspapers and basically anything of interest to your good selves, the readership. Lets see whats been going on in the press.....

A week or so after the Waterloo gig and the trouble caused by Red Action/AFA etc I was told to look out for a magazine called Select which is basically a pop magazine, you know the score, Madonna, Kylie, all the leftie bands etc etc, well it had a write up about the gig, complete with a good few photos, one of the aggro, one of Ian Stuart taken sometime ago, one of a injured skin etc, the article, named 'The Battle of Waterloo' was so biased, so pro the aggressor, in this case the reds, it was basically rotten to the core. It described how skins dress, the patches etc and said who nice it was to see some SFARP skins opposing the gig. It goes on and on about how evil it is to be a patriot and love your skin and tells of how Blood & Honour came about and tells basically of the Skrewdriver history. Then these words I quote 'Stuart is a deeply f\*\*\*\*d up man' referring to Ian Stuart. Well in my eyes if Ians f\*\*\*\*d up for loving his land and his own people, we must all be f\*\*\*\*d up according to this writer. Well to really delve into history and smear us more this mag goes back to 1974 and brings you upto date on racist attacks, why put on the youth, guilt of the past, or at least try to, just remember in the end, we never forgive, and NEVER forget. The article which covered 5 pages also included a article on the German skinhead scene, much the same vein as the above mentioned.

As my wife was in labour with our second child what did I happen to find, while waiting bored stiff in the delivery room in the earlier part of labour and flicking through the magazines on a shelf I bumped into a article in Cosmopolitan, you must understand I was bored, a article entitled 'Dedicated Followers of Fascism' which all in all apart from the verbal denouncing all mags say and preach it gave a insight into the importance of women within the white racial cause and how they tick. It detailed two women one namely 'Claudia' who was the leader of the West Berlin Deutsche Frauen-Front a part of the German Alternative movement and also from Britain a lady called 'Isabel' who was a BNP member. It blatantly went on about the past, Hitler, Jews etc but in all fairness could have been alot worse, but one thing that did anger me was they interviewed Gerry Gable of Searchlight/Communist Party/AFA fame and he really put the dagger in as to be expected but what he wrote was a s true as Elvis still being alive today. I've mentioned this article to try and generate a bit of interest by women readers who read womens magazines regular, to send in anything that might be of interest to myself and the nationalists reading.

Well thats about it with the big newspaper stories for this issue. What about the T.V. Well over the past few months BBC Wales/Cymru have been sniffing about asking questions about Violent Storm etc and the tragedy of the fatal car crash in which all of you out there know about. Well I received a phone call of a Carol Voysey ( I think spelt this way ) asking if I would like to be interviewed for a documentary about the band, its past etc, I agreed at first and made plans for a interview, at the end I pulled out of the interview due to family requests of the band etc but she persisted in phoning and phoning not just me but other people aswell like Celtic Warrior members etc. I beleive they are really trying to dig deep and smear the band but we'll have to wait and see, needless to say they have been banned from a couple of recently organised Blood & Honour East Midlands gigs and shall remain to do so. It was scheduled to be screened in late october/early november but as I compile this, it still hasn't been shown, congratulations to the lads who told them where to go!!

I recently attended the British National Party (BNP) annual general meeting in London in late October, it turned out to be a really good day, about 500+ attended to hear some good speeches, ones to remember where Ken Hendersons from Rochdale, as he is point blank and tells the truth and also the great speech by the french PITE leader who received a standing ovation at the end of his speech. About 100 unwashed reds surfaced to oppose the gig but were taken away by the Police. After the meeting for some really stupid reason the old bill decided we couldn't go our own way home etc and marched us through Westminster (amid chants of Rights for Whites, BNP etc) on the tube across London and then let us go our separate ways.

On enquiring why we had to do so, I was told they had taken enough shit at the previous Waterloo gig they wouldn't allow us to do anything at all. Strange. The reds, scummy journalists and special branch had plenty of cameras to film us but in return we had a few photographers of our own to take snaps of there faces, which they didn't like!! Hail Victory to all in attendance!

On a lighter note, lets see whats been going on in the skinhead world.....

It is rumoured Rebelles Europeens are literally bankrupt after a costly USA trip went all wrong, lets hope not as they have done some great work..... New LPs due out now are Celtic Dawns debut, English Roses debut, a new one by Brutal Attack, the second LPs from White Diamond & Patriotic Ballads..... Also out now a reprint of the Ovaltinees EP ' British Justice ' which although not brilliant has to be a collectors item.....IMPORTANT...Rock O Rama are phasing out all of its vinyl and only doing CDs from now on, I hear Skrewdrivers 'After The Fire' has already been deleted and put only on CD, so all you budding collectors, get your vinyl now, before its too late.

English Rose have started a new deal with Rock O Rama and should be recording as this zine hits the streets and its rumoured to have a track with your truly aswell as a few others on backing vocals. God help English Rose. By the way if you'd like to contact them there new address is PO BOX 249, Derby, DE21 9EG, GB. After the Battlezone split, they have reformed as 'The Battlezone' and have none other than Martin Cross of Skrewdriver, Brutal Attack, Empire fame on bass. I'm led to believe they plan a LP and then are calling it a day, no gigs just the LP/CD. Church of the Creator band 'RAHOWA' have had a name change and are now called Centurion.

Another one for the White Race. Thats the news and great it is that comes from Dave a comrade from Sheffield as his wife Debra gave birth to a bouncing boy Joshua David who weighed in at 7lb 12 $\frac{1}{2}$ oz and was born on 30.9.92. This makes a brother for Rebecca there older daughter. Congratulations Dave & Debbie.

Anti Pop the mail order business that used to deal in mainly Link Records have been in touch to say they have set themselves back in business again after a while but now also stock the Rock O Rama Records and can get all Rebelles, Link and Dim records on request with a waiting limit of 14 days. For a list of what they've got write to Anti Pop - PO BOX 201, Yalding, Kent, ME18 6HF, GB, send a SAE.

The British Unit of the Aryan Resistance Movement have a new address as the old Birmingham address is now defunct. Now its A.R.M. BM3803, London, WC1N 3XX. Write to them and find out what they're about.

Some new zines have come to my attention, they are all American and worth buying, firstly theres - Hail Victory(2 dollars), PO BOX 81, Descanso, CA 91916, USA, Secondly - Frontline ( Same Price ) - Big Al, PO BOX 304, Caldwell, N.J 07006, USA and last but by no way least - Extreme Hatred ( Same price ) c/o Scott, PO BOX 18502, Anaheim, CA 92817, USA. All are willing to exchange other fanzines and all are well worth getting.

Some sad news just in before this issue goes to print is the death of former Bound for Glory singer Eric who was savagely murdered in cold blood by a so called fellow skinhead, which I'm led to believe was a SHARP supporter. All that I know is Eric and this scumbag had a arguement in a club one night and they decided to go outside to sort it out with there fists, but the SHARP scumbag obviously frightened of this pulled a gun out and shot Eric in the face - dead! I shall try and get a more detailed story for next issue, but our thoughts must now be with Erics family and friends who have lost a great man, a true warrior to the cause. Lets avenge the death of this warriors - DEATH TO SHARP! Eric RIP Comrade - Sleep Well.

THE ONLY GOOD COMIE IS A .....

## News

Well here we go for another installment and insight into what the worlds best nationalist band and as usual contains information on the other projects Ian Stuart and fellow band members are upto. Well lets leave it upto Ian to tell us whats what.....

The last few months have as per usual been busy for the members of Skrewdriver what with doing gigs in Newcastle supported by Skullhead who although haven't been doing much lately are still dedicated to the cause, a gig in Staffordshire with Razors Edge, a Patriotic Ballads gig in Nottinghamshire which was very successful and a gig in Derbyshire. The year was rounded off with a excellent gig in the mining town of Mansfield which was superbly organised and went ahead without a hitch. Incidentally a mass police presence saw no violence and the 500 or so that attended had a great night of White Rock Music. Some gay marxist group calling themselves Anti Fascist Action ( A.F.A ) claimed they would prevent the gig going on but as with Waterloo they miserably failed and there was not one of these perverts to be seen. The gig probably coincided with one of their paedophile forum meetings.

More gigs have now been planned for the next couple of months so if you want to come along then listen out on the grapevine for the redirection points or easier contact your local Blood & Honour organiser who should be providing transport etc. Lately most gigs have been organised by the active Blood & Honour Midlands Division.

On the record front - Patriotic Ballads II 'Our Time Will Come' and the second White Diamond LP 'Power & The Glory' are now ready for release after a short delay with a cover mix up! The Klansmen shall be recording a fourth LP in February. Some new Skrewdriver songs are now being played at gigs and include the now quite popular ' Bang Goes the Neighbourhood ' a story of muggers etc.

ABOVE - IAN & STIGGER IN GERMANY.

Recently Rock O Rama Records who have always stuck by helping nationalist bands from around the world recorded a triumph in the courtroom against the German Government who were trying to band several records. The case was dropped because of lack of evidence. It seems that this did not please a organisation of Jews in America. This subversive organisation is called the Anti Defamation League and is used to cause trouble for anybody they don't agree with all over the white world. Apparently they even flew people to Germany to open a private court case against Rock O Rama. Anyway no serious damage is expected. You'd think they'd be satisfied after getting Western soldiers into danger by convincing our governments to go to war against Iraq again - wouldn't you?? Talk about a pointless war to protect and benefit Israel eh!

As British Oi! goes to press a half hour documentary on the 'Rise of the Right' has gone out on British BBC 2 called Public Eye. Well they tried to smear Blood & Honour and showed various photos of the White Christmas gig in Mansfield, for once the BBC had nothing new to tell the media and had to rely on old Skrewdriver footage to show the nation, why ?, well for all the hounding of various nationalists including myself and no less than daily phonecalls to Chris of this zine, we ignored there pleas for help and shut them out. Hence they no nothing of our movement. Lets keep it this way and by all means neccessary avoid contact with the media and there lackeys. They didn't gain access to Waterloo or Mansfield and in the future it will be the same!

Before Christmas Skrewdriver were due to play a gig in Italy, due to unforeseen circumstances we unfortunately missed the plane, we apologise to our Italian comrades, and look forward to our next journey out there.

Sickly Jon Hickson our bassist has his latest offering out on CD anyday, details of this can be found on the British Oi! review pages. Its called 2 MAD and resembles the Sex Pistols style!

Well thats it for this time. Skrewdriver or any band member can be contacted through the Skrewdriver Services Northern Division at PO BOX 249, Derby, DE21 9EG. A SAE guarantees a reply. See our ads for merchandise.

Cheers - Ian Stuart & Skrewdriver.

# Review Sheet

## LAST CHANCE - Compilation LP by Last Chance Fanzine.

Well first off well done to Alex for making the effort to promote British bands but the bands that are on it could have definitely done better, names like Close Shave, English Rose and Razors Edge I expect better from as it seems production of this material has lost some grit through mixing etc compared to the demo versions. 12 songs by 6 bands with the debut of Scottish band 'British Standard' no doubt being the best on the LP with two basic, but good Oi! tracks 'New Europe' and 'Violence Rape & Murder'. But a close second must be the fast and ferocious tracks 'Socialist Worker' & 'I'm not a bad man' by Grade One.

## PATRIOTIC BALLADS II - 'Our Time Will Come' - Rock O Ramam.

Number 2 in one of my favourite 'ideas' on today's music scene, I like the slow stuff like these ballads more and more. The distinctive guitaring and talent of Stigger and Ians vocals shine through as No.2 beats the pants off No.1. Tracks to be mentioned off this 12 track CD are 'Another Prayer for the dying' a track dedicated and about the tragic death of Paul Carter the murdered nationalist. It contains haunting backing vocals of Zoe who also now drums for Ians 'White Diamond'. Also other classics include 'Our time will come', 'The Lions Roar', and the anthem 'Never Give In'.

## SWASTIKA - 4 track demo.

Four tracks by a new Swedish outfit but sadly the quality is a bit naff but the music and vocals do seem to have potential, tracks include 'Race War, Day of the Rope and Nikan Aldrig Stoppa OSS', maybe a band of the future.

## OIFFENSIVE - France Demo.

A basic and a bit disappointing demo of 11 songs from one of the up and coming new breed of French bands. Tracks include 'Viking, Kojak, Zoulou, Adolf' and more. With a bit of quality recording they could be ok but this is a bit crap.

## TRIEBTATER - 8 track demo.

A blinding demo from one of Germany's newcomers. Great stuff, fast music, slow music and no nonsense nationalist lyrics, tracks include 'Volk Wach Auf, Stolz, Blut & Ehre, and Fuhrer, well done Triebtater and watch out for them in your next British Oi!.

## WHITE DIAMOND - 'The Power & The Glory' - Rock O Rama Records.

A second LP from Ian Stuar's rock group White Diamond but it could easily pass as good as Skrewdriver. 8 new songs and 2 cover versions make up a blinding second LP to make up for the poor finished product of their debut. The added difference to the band now is a full time drummer in the form of Zoe Briggs who as mentioned earlier already does the backing vocals on a few of the ballads tracks. Stigger also sings two songs 'To Freedom We Ride' a rock version of the intro off 'No Turning Back' and a ballad 'No Mans Land', tracks to excite the masses are 'Rise Up', 'Refugee' and 'Power & the Glory', be sure to get it!!

## VACANT LOT - 'Stay Mental' - Rock O Rama.

A brilliant debut from this Canadian band 'Vacant Lot' this CD really takes some beating. 12 raucous Oi! tracks, not really political but still great, they on this CD show a band, well rehearsed and well played, tracks include 'Carry On, Oi! the Ultimate sound, Victory, Kusta bin a good one' and my favourites 'Who Commits the crime, Blizzard Army (A football anthem type song that reminded me of the Rejects) and The Border'. All in all I'm well happy I received it, get it or be without a really good CD.

## VIOLENT STORM - 'Celtic Warriors' - possibly Rebelles Europeens.

Well the tragedy that surrounds this forthcoming LP has been well told among skins world wide and in the media but for this LP, which was finished the night before the fatal crash makes it much more of a tribute to the fine lads. At present it hasn't not been sent to Rebelles due to family reasons but eventually it shall see the day of light. Tracks include new and old with songs such as 'Land of my fathers, Give us the right to be proud, Time Bomb, Europe of the Peoples, Come Inside, Stand or Hide, Pure Impact, and my personal favourite mainly because

it reminds me so much of the lads and its 'White Eagles of Snowdon' which includes the moving but haunting guitar work by Shesley. A record never ever to be forgot, the people never to be forgot. All in all a great LP.

#### PRESSURE 28 - Demo '92.

Theres a little resurgence of the non political bands lately so I wrote to these to see what they are about, not bad stuff but recording could be better. 4 songs called 'Working Class Man, We're Alright, Kids on the move & Oi's Alive'. Best track for me has to be 'Working Class Man' a real Oi! classic, I'll be interested to see how these develop as they do have potential, and are due to appear on the 'British Oi! - Working Class Anthems' LP by Hammer Productions soon.

#### 2 MAD - ' From the Cradle to the grave ' - Rock O Rama.

This was originally going to be the final Lionheart LP but due to Jaki not singing on it the lads decided to call themselves 2 Mad. Jon Hickson plays guitar and also sings and the end result is quite good, some funny songs, some serious, all with hard razor sharp music, of the rock kind. Tracks include 'Don't come near me - Crusty Punks', 'Bullshitter' a rip off of Motorhead the song, 'Breakfast with Bernard Manning' 'Its so easy' and more to make up 11 good tracks. Out soon and available from Lionheart, PO Box 249, Derby, DE21 9EG, UK, Only on CD and it costs £12 UK, £13 Europe, £14 World. Also from this address from Lionheart are a few remaining LPs of ' Ride of the Valkyries ' another good LP with great music for £8 inc p&p UK, £9 Rest of world. Two LPs well worth getting hold of now!!

#### BOUND FOR GLORY - OVER THE TOP - Rock O rara.

What can I say about these that already hasn't been written, fast and slow tracks on this latest CD make it the best so far from the US of As best band. Tracks include 'Over the top' a catchy nationalist anthem, 'Stuka Pilot - Fight Or Die' 'The Good Fight' 'Bound For Glory' 'Nothing to Hide' and my favourite off the CD being 'Victory Song' which is a song dedicated to the Confederate Knights of America and has some great music and lyrics to it. More tracks make it up to an 11 track CD that will take some beating, getting it is a must. Well done BFG.

#### BULDOK - Patriot Demo - Bohemia Records.

The debut from one of Czechoslovakias finest bands, produced by there manager Karel it has turned out powerful to say the least, but as per usual the language barrier doesn't let me enjoy the lyrics. 14 tracks of powerful white racist rock to get most feet tapping, tracks include 'White Storm', 'Our Anger', 'Invasion', 'Wake Up Europe', 'Elite', 'Bulldog' and more. All in all well done to the lads of Buldok and lets hope we hear more off you soon, comes in a well presented case too. £3 or 5 Dollars inc P&P from Karel Duben, Komenského 357, 542 01 Zacler, Czecho-SLOVAKIA.

Heres a band that are slowing making a name for themselves over here in the UK but are well known and well liked in the USA where they originate from. I thought I'd write and see what Rival are about.

1. When, why and where did Rival form ?

Rival formed during the summer of 1990 in Detroit, MI. Pat & Sean decided to form a skinhead band, for the love of Oi! you could say. Bill & Jim were in another Oi! band at the time called the Rogues and joined up at a later date due to other line ups just not working out.

2. Could you tell us about the line up ?

The current line up stands as : Jim (23) is Vocals & Drums, Pat (27) - Bass, Sean (20) on Guitar and Bill (23) also on Guitar.

3. Why the name 'Rival' ?

We decided on the name Rival because of the way skins are viewed by the general media, as enemies or opponents. Its a sort of sarcastic play of the term, actually you could say the opposite is true, as far as the white public is concerned.

When Bill & Jim joined we were gonna change the name of the band to the ' Works ' because our style changed. We heard 'The Works' is a slang term for Smack (The Drug) as so because of that we stuck with Rival.

4. Have any of Rival played in any other bands?

Yeah - Pat was the original bassist for A.L.D which means Almighty Lumberjacks of Death. Sean played bass for a short time with The Unclean and Bill & Jim are in the Rogues aswell as Rival.

5. Could you tell us about your songs ?

Jim basically writes about all the bullshit he sees happening around locally, nationally

and worldwide. To name a few songs theres: "Put up a fence" a song about the illegal mud immigration into our country everyday, "1991" is about the zionist controlled media and their efforts to brainwash the average American, "Dead & Buried" is about Detroit and about how f\*\*k\*d up it is, "We got the right" is basically a skinhead pride anthem.

6. Are Rival a political band ?

Yes and NO. We touch on some political subjects which we hope will raise a few eyebrows of our listeners. We vary our songs so that not all of them are just about White Power. Jim is involved in the 'United Front' a local movement you might say and the rest of us aren't affiliated with one group or party but we do support all movements that support the interests of the white race.

7. What do you think of things like the KKK, WAR, CI etc ?

Naturally we support them and their efforts to protect the white race, we can't really say which is the best or worst as most do have good and bad points. However the KKK has a tremendous amount of history behind them and there still going, thats respectable to say the least.

8. What merchandise have you available ?

Well our two LPs are available ( 'We've got the right' & 'The True will Survive' ) are on Rock O Rama on CD and Vinyl and we have t-shirts with the eagle design, thats about it.

9. How is your local skin scene and could you tell us about it ?

The local skin scene is quite good and always looking better with new bands popping up like Nationalist Rebellion, and Max Resist & The Hooligans. Local skins follow us and our mates and some good punks and some rockers too.

10. What on the USA skinhead music scene, do you think is good/bad ?

We're not overly familiar with the US skin bands, as alot sound like hardcore and we are not crazy about that. There are some real cool bands though and some of our faves are - Bound For Glory, Final Solution, Bruisers, Arresting Officers, Forced Reality, Nationalist Rebellion and Max Resist.

11. What other hobbies do you have ?

Since we all work for a living, hobbies we don't really have time for, other than the band, and our favourite hobby is drinking down the pub, other hobbies include Fishing, Collecting Records, Camping Up North, Hockey and Sean snowboards.

12. Anything else you would like to add ?

Thanks to all for any support or interest. Cheers to you Chris for the interview and HAIL VICTORY SKINHEADS! Stick to your guns, mates. Keep our secret army alive. Rival can be contacted through Force Majeure Records, PO BOX 39148, Detroit, MI 48239, USA. Our t-shirts are 10 dollars inc P&P.

Cheers to Rival and Bill for answering the interview, good luck to you all.
